

## Online Document Hosting Services

3D Web is the latest online service launched by Digital Documents Ltd.

3D Web provides a secure online repository where clients can have online access to their documents and data using virtual private network (VPN) or point to point link technology 24/7 365.

This service can be integrated with other document imaging and processing services to enable clients enjoy the benefits of cutting edge document management technologies without the enormous associated capital investment and ongoing IT support costs.

This service is proving particularly popular with organisations having multiple remote offices and multi national corporations.
